Re: Trackyte #20-#22

Dear Mr. Wilcox:

Since the meeting with uranium operators in Green River, Ron Daniels and myself have put together a form for requesting *exclusion* from the Utah Mined Land Reclamation Act.

Since you indicated that you will be mining less than 500 tons per year or disturbing less than two (2) acres, I'm sending this form to you for filing of your Trackyte claims. You are not required to file a notice of intent or a reclamation plan unless you mine more than 500 tons per year, or disturb more than two (2) acres.

Please contact us if you have any question.

Very truly yours,

James W. Carter
Engineering Geologist
